

Rear View Mirror with Mounting Bracket COL7328

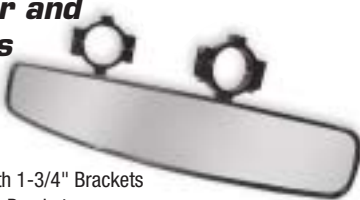

Large 5" diameter, flat face mirror gives optimal side and rear vision.

Wide Angle Mirror and Clamp-On Brackets

Mirror has up to three times more visibility than most standard mirrors.

Part No. Description
COL16741 Wide Angle Mirror with 1-3/4" Brackets
COL16742 Wide Angle Mirror, No Brackets

Adjustable Aluminum Gas Pedal with Roller Bearings (Super Smooth)

Roller bearings and a nylon roller foot pedal smooth acceleration off the corners for better throttle "feel" without the drag and discomfort associated with round tube or flat steel pedals. The adjustable pedal and linkage arm may be indexed to fit and can also be adjusted from side to side for exact line up in the chassis. Ideal for long races when driver comfort is critical. Available with straight or angled mounting flange.

Part No. Description
COL19460 Throttle Pedal Assembly, Alum., Straight
COL19831 Throttle Pedal Assembly, Alum., Angled (18°)

"Rod Ruler" COL21790

Quickly and accurately measure tie rods, trailing arms, upper third links or any linkages fitted with rod ends. Stepped boss automatically aligns the rod end on center for a perfect measurement. Compatible with 5/16", 3/8", 7/16", 1/2", 5/8" and 3/4" rod ends, linkages up to 36" long, or torque absorbers with up to 5-1/2" dia. springs.

Aluminum Driveshafts

Driveshafts are made from 3.0" O.D. x .125" wall aluminum tubing, fitted with super durable 6061-T6 billet aluminum end yokes and GM 1310 series (1-1/16" x 3-7/32") u-joints, and can reduce rotating weight by up to 8 lbs. Slip yoke must be purchased separately. Driveshaft measurements are from u-joint center line to u-joint center line.

NEW!

Sportsman Billet Steel Hubs

A direct replacement for '80-up GM metric hubs, they weigh just 10 lbs. and accept stock bearings, races and dust caps. May be used with the stock caliper. Hubs are sold individually and include 5/8"-11 (coarse thread) studs.

Part No. Description
COL16797 5 x 5"
COL16798 5 x 4-3/4"

Sportsman Rotor COL140-753

Heavy duty straight vane rotor is 1" x 10-1/2" Dia., 10-bolt pattern (36 vanes). Use with billet steel hub and stock caliper.

Aluminum Brake Duct COL16826

Durable, 3" brake duct will not crush when the clamp is tightened.

2:1 Brake Bias Adjusters

Available in two versions, clamp-on mounts to 1-3/4" dia. tubing, while the universal bolt-on mounts to a roll bar or bracket. CNC-machined billet aluminum housings have extra long handles with bearings, billet aluminum cranks and heavy duty bronze gears and bushings. The smoothest brake adjusters, ideal for race cars requiring constant brake adjustments.

Part No. Description
COL20791 2:1 Brake Adjuster, Bolt-On, 4' Cable Length
COL20795 2:1 Brake Adjuster, Clamp-On, 2' Cable Length

Steering Quickeners

Compact, CNC-machined aluminum ProLite Quickeners are anodized for corrosion resistance and weigh just 2-1/2 lbs.

Part No. Description
COL22350 2.0:1, Ball Mount
COL22369 1.5:1, Two-Bolt Mount
COL22370 2.0:1, Two-Bolt Mount
COL22380 2.0:1, Three-Bolt Mount

Threaded Wide 5 Wheel Spacers

Billet aluminum spacers thread to 5/8" coarse studs and are available in thicknesses of 1/8", 1/4", 1/2", 3/4" and 1". Sold in packs of five.
